PROFESSIONAL SUMMARY

Final-year Information Technology student with strong skills in Java, Python, Flutter, FastAPI, and AI-driven software development. Passionate about backend engineering, full-stack development, and building intelligent automation systems. Strong foundation in Data Structures, OOP, DBMS, and problem solving.

TECHNICAL SKILLS

Languages: Java, Python, SQL

Frameworks: Flutter, FastAPI, Firebase, REST APIs, HTML, CSS, JS

Databases: MySQL, Firebase Firestore

Developer Tools: Git, GitHub, VS Code, Unity

Core Computer Science: Data Structures, Algorithms, Object-Oriented Programming, DBMS, Operating Systems

PROJECTS

AI Beast Studio OS

Python | FastAPI | Ollama | Git

Developed an AI-powered software engineering platform using AI agents, a modular architecture, and an event-driven plugin framework. Built an intelligent planning engine that transforms project goals into structured development tasks and supports future automation of coding, testing, and documentation.

SafeWay

Flutter | Firebase | FastAPI

Developed a real-time women safety application that enables users to send SOS alerts with live location and multimedia evidence to nearby volunteers and emergency contacts. Integrated Firebase services for authentication, cloud storage, and real-time notifications to ensure secure and reliable emergency communication.

Hyperlocal Demand App

Flutter | FastAPI | Firebase

Built a location-based service platform that connects users with nearby service providers through real-time service requests. Implemented secure authentication, REST APIs, and scalable backend services using FastAPI and Firebase to deliver a fast, reliable, and user-friendly experience.

CERTIFICATIONS

- NPTEL Programming in Java, Database Management System
- NASSCOM Cybersecurity Analysis and Design, Software Programmer in Java
- Typewriting English Lower & Higher

INTERNSHIPS

Web Development Intern | JB Soft System

Worked as a Web Development Intern, developing and maintaining WordPress-based business websites while managing live business content and market data. Collaborated with senior developers during website deployment, maintenance, and content updates, gaining practical experience in responsive web development, content management, and client-focused solutions.

ACHIEVEMENTS

Earned a Gold Badge in SQL, Silver Badge in Python, and Bronze Badge in Problem Solving on HackerRank, demonstrating strong programming and analytical skills. Developed the AI Beast Studio OS, an AI-powered software engineering platform, and successfully built multiple full-stack and mobile applications using modern software development practices.

EDUCATION

B.TECH. Information Technology | Panimalar Engineering College

2023 – 2027

Current CGPA: 8.87 / 10

Higher Secondary (State Board) | Dr. Vimala Convent Mat. Hr. Sec. School, Chennai

2021 – 2023

Class XII: 87%
